Re: Identification Number C00254581

Reference: Letter of June 22, 2004 response requested for Amended April Quarterly Report (2/26/04 thru 3/31/04)
received 6/3/04

Your letter of June 22, 2004 requests a response for the above referenced report, which was received on June 3, 2004 because the

amended report disclosed substantial increases in the amounts of receipts and disbursements from those disclosed on the original report.

The reason for the substantial increase in the disclosed receipts is because neither the Committee nor the Treasurer had the receipts information

available at the time that the original report was due and filed. Neither the Committee nor the Treasurer had all of the disbursement itemization

or information at the time the original report was due and filed. The Treasurer and Committee obtained the receipts and disbursements information

as promptly as possible in order to amend the report and to provide all of the financial disclosures necessary under the law. Upon receipt of the

information on receipts and disbursements, the Treasurer filed an amended report, which was filed electronically on June 3, 2004.

The information on receipts and disbursements was not available because the Committee nor the Treasurer had the receipts and disbursement

information necessary to include same in the original disclosure filed on April 15, 2004. However, the Committee and the Treasurer were diligent

in ascertaining the information and filing an amended report to provide the necessary disclosure.
